

THE BLAIRMORE ENTERPRISE

VOL. XIII, NO. 24.

BLAIRMORE, ALBERTA, THURSDAY, JUNE 15, 1922

\$2.00 YEARLY

Summer Time Is "FLY TIME"

Get your Screen Doors early, while we have a complete stock of all sizes. All our screen doors are mortised and 1 1/4 inches thick, which means they will stand the hard usage. We also carry the COMBINATION Storm and Screen panel doors. This makes a permanent door for winter and summer and saves you the trouble of changing them each season.

Prices on doors range from \$5.50 to \$15.00, including Hardware.

This week we have a special price of \$5.00 for an ALL COPPER WASH BOILER.

Blairmore Hardware Co.
BLAIRMORE, ALBERTA

FREE LAND GRANT FOR COURT HOUSE

The regular meeting of the town council, was held on Monday night, last, with the mayor and all the council being present. Accounts totalling \$671.95 were passed for payment, subject to the approval of the different committees.

A by-law, introduced by J. A. McDonald, was passed. It reads to the effect that cars will not be allowed to park on the north side of Victoria Street for more than twenty minutes. Buildings permits were issued to the Corner Association and A. Brunetto for fireproof structures. The tenders for the work shop to be erected by the town were laid over till the next regular meeting.

A grant was made to the Alberta Provincial Police Department of four lots, or 100 foot frontage, east of So. Victor Putnam's residence on east Victoria Street. This property, we understand was under survey of the department for the purpose of erecting a court house and police barracks. Undoubtedly it will be accepted, and construction work started in the near future.

Word was received from the C.P.R. Athletic Club to the effect that a committee had been appointed from that body and will arrive here in due time to confer with a committee of the council and citizens in an effort to complete the arrangements for their sports day on the First of July. Just when the committee would arrive here was not stated, but it is expected that it will be here within the next week.

UNEXPECTED DEATH OF TRONO BAY

We regret to record this week the death of Trono, the nine-months old son of Mr. and Mrs. S. Trono, which

CHAUTAUQUA ON MONDAY NEXT

With the several meetings held during the past week, arrangements have been completed for the holding of the Chautauqua festival, which commences on Monday next.

The arena has been secured and it was indeed a wise move on the part of the committee to get this building for the purpose. The platform will be erected near the centre of the arena, facing the east end of the arena. Seats will be placed in the space in front of that, filling in the space up to the end, so that the seats in the east end can be utilized, making the seats in a more compact form, so the audiences will have a better chance to see and hear the performances.

The committee have taken hold of the ticket selling end of business and are unparrying in their efforts to make up the guarantee. So far, the tickets are not going any too well, but undoubtedly around the last day or so they will be so rushed that they will have their hands full handing them out.

As for the program this year, we can only judge, as yet, from the advertising matter that has been sent, but we can readily say that it will be up to the standard of former years and probably more suited to meet the requirements of the districts served by this Dominion-wide organization.

The afternoon performance will be at 3.30 and the evening performances will commence at 8 o'clock sharp. Arrangements are under way to have the school close earlier in the evening to allow the children to attend the afternoon performances.

occurred last evening about five o'clock. Although the child had been ailing for some time, death was not expected and is a sad blow. Funeral services are being conducted this afternoon at 4 p.m., by the Rev. Father Cosman in the Catholic church. Interment will take place in the Catholic cemetery immediately after the service.

We join with the many friends in expressing our sincere sympathy to the parents in this sad event.

CROWS' NEST PICNIC

"She's little, but she's wise." "She's a terror for her size." "Crows' Nest, which seems to fit in very well with the above lines, has completed the arrangements for a whole two-day picnic, which includes ball games, dancing and a general good time. It is to be held next Saturday and Sunday, June 17th and 18th.

They have secured Grass Lake, champions of the Rainbelt League, to be the opponents for the Crows' Nest All Stars—who as yet, are boasting of having an undefeated record. The first game is billed for Saturday evening at six o'clock and the final game will be on Sunday at 3 p.m. And just to calve the proceedings, a dance will be staged after the ball game on Saturday, in the Summit hotel.

Several local fans have expressed their intentions of attending and we are sure that they will have the time of their lives.

DEATH OF EDNA SMITH

The sad death occurred on Sunday last, June 11th, of Edna Mabel Smith, eldest daughter of Mr. and Mrs. Carl Smith, of Blairmore, after a prolonged siege of heart trouble. She was eleven years and seven months of age and was a general favorite with all. Her death was indeed a sad blow to the family.

Funeral services were held at the Union church on Tuesday afternoon at 4 o'clock, conducted by the Rev. W. T. Young. Interment took place in the Protestant cemetery and was attended by a large number of friends and school children.

Burden of Proof is on You

If you lose a receipt for a cash payment it is not the other man's job to prove that the account is unpaid. It is up to you to prove payment. Most often it cannot be done. In paying bills by cheque, protection is assured.

Interview one of our branch managers and arrange to open a checking account.

C. S. E. T. SUMMER CAMP IN AUGUST

The C.S.E.T. will hold their annual summer camp this year from the 1st to the 7th of August at Lee Lake. The Tuxis and Trail Ranger boys from Macleod to Crows' Nest will form the camp, which will be under the supervision of Rev. W. T. Young, assisted by Wallace Forgie, Rev. T. Hart, of Bellevue, and Rev. C. S. Pinder, of Hillcrest. Last year upwards of 85 boys of the senior and junior groups attended the camp and it is expected that this year will see around one hundred and fifty or more boys there. Applications have to be handed in to Mr. Young before the first of July. Last year the board etc., was charged for at the rate of \$1 per day and there was a small credit balance, which will enable the boys to spend the whole week there this year for \$6, one dollar less than last year.

A regular daily program, which we will endeavor to publish next issue, includes bible study, hikes, swimming, and such sports that will help to pass the time in a camp of this sort. Parents could do no better than allow their boys that belong to these classes, to attend this camp. It is located in an ideal spot and will be under the supervision of a man who can handle boys, keep them out of mischief, teach them to lead a christian life, and show them the path to better citizenship, better manhood and better and cleaner sportsmanship. The cost is trifling and the boys will be as safe as if they were at home.

The C.G.T. will have the use of camp from the 7th to the 14th of August. Their program is much the same as the boys, and the cost, we understand will be the same.

Coleman Happenings

Mr. Jack Graham, of Lethbridge, was at home over the week end.

A number of our local golfers made a trip to Pincher Creek on Sunday.

Mrs. James Scott entertained a number of ladies at a tea on Monday afternoon.

Mr. and Mrs. Robt. Carson, who have been visiting the latter's parents Mr. and Mrs. G. R. Powell, returned to their home in Daysland on Tuesday.

Messrs. Chas. Ouimette, W. L. Ouimette, McKeen Hunter and Joe Emmerson left here on Sunday morning by motor for Edmonton, where they expect to spend a week or ten days. Mr. Emmerson returned on Tuesday morning's train, having received a wire at Red Deer notifying him of the accident to Mrs. Emmerson and Joy.

A serious accident occurred on Sunday last, when Mr. King's car, driven by Mr. Robt. Stuart, plunged over a steep embankment this side of Michel. Fortunately everyone was thrown out of the car before it reached the bottom and although everyone was badly shaken up, Mrs. Joseph Emmerson and little Joy Emmerson suffered the most severe injuries. Mrs. Emmerson and Joy were taken to the Michel hospital where they are progressing very favorably.

PROVINCIAL NEWS

It is expected that there will be about twenty field crop competitions in the province this year. Entries are already beginning to come into the office of the Crops Commissioner in the department of agriculture.

Enquiry's being made into the possibility of a potato flour plant at Edmonton.

Thirty ex-members of the Irish constabulary, advance party of a greater number to arrive later, have taken up residence in the Lloydminster district where they will become farmers.

Dr. D. A. McGibbon, professor of economics at the Alberta University, has been named by the Alberta government, as special commissioner to investigate the banking situation and the operation of the bank act. This is in accordance with an announcement made some time ago by Premier Greenfield that such an enquiry would be conducted.

Members of the government will make a decision shortly in the application of the Calgary Gas Company for permission to cross read allowances with a pipe line by means of which the company plans to transport gas from the Redcliff field near Medicine Hat to augment the supply in Lethbridge and Calgary and other points. The application is being supported by the City of Calgary and is being opposed by the City of Medicine Hat and the town of Redcliff all of whom have sent delegations to interview the government. Medicine Hat and Redcliff claim such a pipe line will deplete the gas field upon which these two places claim to depend for their industrial life. Calgary's present gas supply is almost exhausted which is their reason for supporting the application of the gas company.

The final draft of the new course of public school studies to be put into effect at the beginning of the fall term, was considered by the professional branch of the general committee on revision of the curriculum at a session held in Edmonton during the past week.

The annual convention of the Women's Institutes is in progress this week at Calgary, and will last until Saturday, the convention of the girls' clubs being held the last two days of the week.

FOREST FIRE LAW

STRENGTHENED

Many important amendments were made to the Forest and Prairie Fire Act of the province of Alberta at the last session of the legislature. The principal of these amendments, which will greatly lessen the difficulty of combating fires, and which are welcomed by all who have to do with forests, are the following:

All Dominion forest and fire dangers, Royal Canadian Mounted Police, Provincial Police and municipal councillors are ex-officio fire guardians, with authority to enforce the act.

Municipal councils must appoint fire guardians.

Fire guardians have the power to order out any male person over sixteen years of age to help in fighting a prairie or forest fire. There are of course the usual exemptions in the case of postmasters, physicians, telegraph operators, etc.

Spark arresters must be used on marine engines, with a view to preventing fires originating from sparks thrown from the smokestacks of steamboats operating on northern lakes and rivers.

Provision is made for the establishment of fire districts. In these timbered areas it is illegal to start clearing fires between April 15th and November 15th without a special permit.

The scale of penalties for violation of the Forest Fire Act has been revised and the penalties made heavier, so that there will be greater respect for the Act.

OPEN NEW LINKS NEXT SATURDAY

The Lundbreck Golf Club have completed the arrangements for the grand opening of their links on Saturday next.

The course is situated just on the west edge of the village and comprises about one hundred and sixty acres with nine holes. It is in fine shape and is also reported to be very picturesque. To those who are used to the mountain courses, with its scenery, trees, etc., it will be quite a change, for one's drive can be seen very easily for some distance from the putting green.

The committee in charge of the arrangements have left no stone un-

turned to assure visiting golfers a most enjoyable time.

A large number of local enthusiasts will undoubtedly attend and take in the day's program.

Our Personal Guarantee to All Skin Sufferers

You have our absolute guarantee of relief from the first bottle of D. D. D. Your money will be returned without a word if you tell us that the first bottle did not stop that itch, did not soothe and cool that eruption. You alone are the judge.

We have watched the action of this standard medical discovery on the sick skin in hundreds of cases and we know. And if you are just crazy with itching or pain, you will feel soothing, cooling wash.

We have made that friends of more than one family in recommending D. D. D. to a skin sufferer here and there, and we want you to try it now on our positive no-cure guarantee. Price, 75c. a bottle. Try D. D. D. Soap too.

BIG-SIX SPEEDSTER LATEST ADDITION TO STUDEBAKER

Announcement is made of a new and important addition to the Studebaker line, the Big-Six Speedster. Of four-passenger capacity, this new model is noted not only for its speed, lines and aristocratic appearance but also for the fact that it is the last word in completeness of equipment.

Among the innovations presented in the new Big-Six Speedster is the upholstered dividing arm which is a feature of the rear seat design and by means of which positive riding comfort is assured both rear seat passengers.

The new model is priced at \$2750, f.o.b. Walkerville, Ont., and at this price it includes a number of features which are either exclusive or are obtained in only the highest priced cars.

Among these are the courtesy light, the traveling trunk and trunk rack, front and rear bumpers, and disc wheels including two extra wheels with non-skid tires and tubes, mounted on the running board.

Because of the long sweeping lines, the many extra appointments and the quality throughout which the eye quickly notes, the new Speedster gives the impression of being a much more expensive than it really is.

The new Speedster is a remarkable combination of the beautiful and the utilitarian. The special features of equipment accentuate its appearance when on city streets and at the same time are a valuable convenience on short or long distance tours. Particularly is this true of the traveling trunk in which may be packed paraphernalia for a tour of several days or weeks. Then, too, the tilt of the front seat and the upholstered dividing arm at min th rear seat insure comfort and restfulness for all passengers.

Riding comfort under all conditions is provided not only by the tilt of the front seat, the divided rear seat, the deep, soft cushions and the roominess, but also by the perfect balance of the chassis and the long semi-elliptic springs front and rear. Ease of operation is assured by the perfected dryplate disc clutch and by the intermediate transmission which is easy-shifting, positive and noiseless.

The Crows' Nest Pass Motors are local district agents.

FERNIE WINS IN GOLF PLAY

A team of nine Blairmore golfers arrived in Fernie on Wednesday afternoon to take the measure of the local club and in spite of a heavy rain a competition was lined up as follows:

Fernie
D. G. MacKenzie A. Watson
J. B. Wilson T. Prentice
J. P. Robert S. Herchman
Jas. Farmer J. S. Irvine
W. Bird N. E. Suddaby
F. Smith E. K. Stewart
N. McLeod A. C. Liphardt
G. N. Elwin M. A. Kastner
J. Olivier J. R. Wallace

Keen interest was taken in the match, particularly as D. G. MacKenzie, the former Macleod golfer and a player who has a national reputation was matched against our own Sandy Watson, who has taught our players all they know about the game.

Both these gentlemen at different times have reached the semi-finals in the competitions for the championship of Canada, so that the crowd who followed the game had the pleasure of seeing a real match. The fight, which was for holes, was a close one and was only decided at the 18th when Sandy nosed out on his opponent. This is the second time that Watson has met MacKenzie. In the first match, which took place at Blairmore a couple of weeks ago, our champion lost to MacKenzie by two strokes.

The result of the entire Fernie match was very much in favor of the home team—Fernie Free Press.

McLAUGHLIN MOTOR COMPANY DOING MAMMOTH EXPORT BUSINESS.

Entire Trainload Leaves Canada For Great Britain.

The automobile industry in Canada has been one of the first industries to resume pre-war production schedules. The domestic market for motor cars has improved 200 per cent over last year. In many makes of cars the demand at present is greater than the supply. Now that prices have been stabilized, prospective

buyers are no longer deterred by purchases which fact has stimulated this spring.

Canada is fast becoming an important factor in export trade as far as automobiles are concerned. Ever since General Motors of Canada, Ltd., with plants at Walkerville and Oshawa, decided to enter the export markets, large shipments of General Motors cars have left Oshawa daily for British and foreign ports. The export market has experienced steady and stable improvement. Orders have been coming in faster than was at first anticipated. At the present time General Motors of Canada, Ltd. find it necessary to work overtime in order to fill orders for domestic and overseas demand.

In April an entire train load consisting of sixty-three freight cars loaded with General Motors' cars, left Oshawa for the Atlantic seaboard en route to England. The train reached St. John on April 21st.

Three days were required to load the boxed automobiles together with other shipments which had previously reached St. John into the Canadian Conqueror a government owned steamship, three quarters of whose cargo consisted of motor cars. The steamship left St. John on April 26 and arrived in England about May 6th.

The automobiles will be unloaded and ready for distribution in the British Empire about May 9th. This rapid transit was made possible by the fact that the Grand Trunk National and the Government Merchant Marine handled the entire shipment and co-operated with the manufacturer to give them prompt service.

This train load of automobiles is estimated to be worth \$250,000.00. The weight was over 500 tons and the cost of transporting the shipment from Oshawa to England was \$40,000.00. As the shipment was entirely handled by government lines and as other shipments are being sent daily to all points on the globe, the automobile industry is making its liberal contribution to the prosperity of Canadian railroad and steamship companies.

A diverse array of industries are today feeling the stimulus caused by the export demand for automobiles. The lumber, alone, required for the building of the bodies and for boxing the motor cars for the train load shipment runs into vast figures, all of which is produced in Canada. Every factory making small parts and accessories used in the Canadian-built motors, is feeling the benefit.

The automobile industry is today employing more people than ever before and in this way is one of the leading industries in hastening the return of National prosperity.

Mr. A. M. Morrison, of Coleman, is Pass Agent for the McLaughlins and has made a large number of sales this season.

BLAIRMORE BOYS COMPETING

The boy's classes of the Union church, under the direction of the C. E. T. T., and the supervision of Rev. Young, recently competed for the provincial honors in sports, for a shield, to be presented to the town securing the highest marks. There was the broad jump, high jump, hop, step and jump, shot putting, etc. Following is the score of the different groups:

Lifebuoy—Chas. Howe 624, Thos. Kemp 576, L. Carter 460, W. Lord 412, E. Emms 402, John Patterson 400, A. Stewart 362, Robert Barnhill 356, H. Anderson 306, P. Christopher 207.

Nomskids—N. Anderson 553, D. Kemp 500, J. Houbrege 450, R. Pinkney 432, R. Thompson 408, A. Decaud 380, A. Thberg 316, E. Hornquist 285, A. McKay 258, Alfred McKay 234.

Communiators—A. Foreman 454, G. Martini 452, Geo. Shearer 452, H. Vanduren 438, J. McVey 425, P. Stewart 425, R. McDonald 421, Charles Joyce 378, M. Evans 360, G. Christophers 330, F. Knapman 327.

ALBERTA HOTEL ASSOCIATION

The Alberta Hotel Association was formed at a meeting of hotel men of the province held in Calgary last Friday. A. T. Inskip, of Lacombe, is president. The promoters of the association announce that it is not after licenses of any sort for hotels, but will certainly work for any legitimate concessions that will benefit the hotel business of Alberta.

CARTER-SMITH

The marriage of Anne M. Smith, daughter of Mr. and Mrs. Archibald McLeod, of Blairmore, to James B. Carter, son of Mr. and Mrs. James Carter of Antigonish, N.S., took place at St. Joachim's church, Edmonton, at 6:30 a.m., on June 6th, the Rev. Father Patrick officiating.

THIRD DAY
Afternoon—Concert Prelude.—Eller-Willoughby Ladies' Orchestra Lecture—"Present Day Problems of Self-Government in the British Empire"—Alexander Thomson, of London, England Admission 75c

NIGHT—Grand Concert.—Eller-Willoughby Ladies' Orchestra Fenwick Newell, Canadian Lyric Tenor Admission 75c

FOURTH DAY
Afternoon—Concert Prelude—"One Man Band"—Emory Farnell Lecture—"Seeing Life Whole"—William H. Stout Admission \$1.00

NIGHT—Concert Prelude—Something Different.—Emory Farnell Lecture—"Storm Tossed Russia"—Moritz G. Hindus Admission 75c

FIFTH DAY
Afternoon—Rest.

NIGHT—Reed Metropolitan Players Present.—English Comedy Admission \$1.00

SIXTH DAY
Afternoon—Lecture Entertainment—Chief Strongheart, An Interesting Chronicle, Oublie, the Red Man, "From Peace Pipe to War Trail and Back Again." Admission 75c

NIGHT—An Evening of Mystery and Magic by the Max Who Mystifies.—Davis, Master Magician Admission 75c

DAILY SCHEDULE

Afternoon Concert — 3:30
Afternoon Lecture — 3:40
Junior Chautauqua — 5:00
Evening Concert — 8:00
Evening Lecture — 8:40

tation as a xylophone soloist and trap drummer. In fact, she is one of the very few first-class lady trap drummers on the platform. Fenwick Newell, Lyric Tenor, will be heard to advantage, with this orchestral accompaniment. The third day is a real music treat.

How Radium Is Weighed

Tube is Placed Near Most Sensitive Electrical Instrument

A wonderful account of the vastness of the problem of producing radium was given by Sir Ernest Rutherford the other day at the Royal Institution.

From five thousand tons of the mineral, barite, only a tenth of the amount is rich enough for the chemist to treat, and this 500 tons, selected by hand-picking, produces after many elaborate chemical processes some fifteen grams of radium.

If we represented the picked ore by a line drawn from London to Edinburgh, he said, the actual amount of radium it contained would be represented by a line four inches in length.

One of the most remarkable features of radium is that, in spite of the very small quantities in which it is employed, the exact amount contained in a tube or bottle can be measured very accurately within a few minutes. It is not even necessary to open the bottle to examine the contents.

Radium is weighed, so to speak, by electricity; the phial, or tube, is placed near a sensitive electrometer—the most delicate instrument we possess for measuring very minute quantities of electricity—and by comparing it with a known standard amount the value of the radium is quickly found.

By this simple method of testing hundreds of thousands of pounds' worth of radium are sold every year.

Record Sum for

Rare Postage Stamp

Thirty-Five Thousand Dollars Paid by American Collector

One of the rarest stamps in the world, a one-cent black stamp of the 1856 issue of British Guiana, was sold by auction in Paris and realized what must amount to a record sum of \$35,000. It was bought by Mr. Hugo Griebner, a London Stamp expert, for an American collector. The previous highest price for a stamp was \$15,000 paid last June for an 1871 one-cent Hawaiian specimen. The "one-cent 1856 British Guiana" belonged to the collection of the late Baron de la Reunelle, von Ferrary. The Baron, who was an honorary professor at the College de France, left Paris on the declaration of war, and died in 1917, bequeathing his priceless collection to the Berlin Museum. It has ever since been under sequestration. The proceeds of the sale will be paid to the reparations office. The stamp was one of an emergency issue prepared by a firm of local printers in Georgetown, British Guiana, in 1856. It was first sold as a philatelic curiosity for a few shillings in 1873, and later was part of a collection sold for \$120. For the unique American five-cent stamp of Roosevelt (New Hampshire) 123,375 francs (\$19,000 at present rate of exchange) was paid on behalf of Mr. Hind, a wealthy American collector. The total amount realized at the sale was over \$600,000. There is still in the world (or in the States) a lot of money for fads.

English Minister Starts Fruit Farm

Emigrates to Canada to Give Sons Better Opportunities

To start fruit farming in Ontario, the Rev. Ambrose Veevers, Congregational minister of Lafford, Devon, sailed recently with his wife and family from Liverpool.

Mr. Veevers is 42 years of age, and he explained that he was emigrating so that his sons would have a better opportunity to get on in life. Two sons had already gone out, and he and his wife, Mr. Veevers is accompanied by two other sons and two daughters.

Prize Open to World

Owing to the weight of authoritative opinion in Great Britain and elsewhere, the £20,000 offered by Lord Abthorpe, owner of the Montreal Star, for cancer research work will go to the Imperial Cancer Research Fund in London, while the second £20,000 will remain as originally offered as a prize for the discovery of a cure for cancer, says Reuters' correspondent at Ottawa.

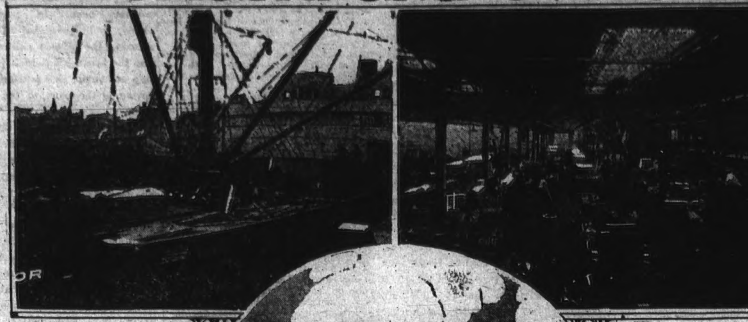

The prize will be open to the world and the award will be made by the Royal College of Physicians and the Royal College of Surgeons of London.

New Creameries for Alberta

New creameries are being built in several sections in the northern part of Alberta. Cheese factories are being erected at Redoubt, Round Hill and Calmar, and a creamery is being built privately at Wetaskiwin. A creamery is also being built at Peace River. Crossing and another at Berwyn, end of steel on the Edmonton-Dunvegan and British Columbia Railway.

Memoirs of the Ex-Kaiser

Wilhelm May Get One Million for Foreign Rights

The Daily Chronicle publishes the following Berlin dispatch: "The Kaiser Wilhelm has practically completed the manuscript of his long-expected book. Parts of it have been shown to likely foreign buyers. I believe the ex-Kaiser is standing out for £1,000,000 for the foreign rights, and that he is practically certain to get that sum. At the present rate of exchange the amount is equal to nearly 300,000,000 marks, or four times what he has received from Germany since the revolution. Besides that figure the royalties from the sale of the German edition will be small indeed.

"The ex-Kaiser has, of course, had literary and other help in turning out the MS. and has appealed to many of his old friends and advisers for help in the matter of what to say and what not to say. I hear Hindenburg was consulted with regard to a considerable portion of the narrative. The volume there will contain a very careful and guarded story. It will, of course, be argumentative and provocative regarding some of the happenings during the main period it covers—a number of pre-war years and those of the great world struggle—but there will be no political surprises, sensational or otherwise."

Why Women Talk

Expend Less Energy and Therefore Usually Have the Last Word

Those who maintain that women are more voluble than men do not perhaps know that there is a scientific explanation for the phenomenon discovered some years ago by a French investigator. "The average male," he asserted, speaking for one hour, expends sufficient energy to enable him in another sphere of work, to lift a 2 lb. weight 40 ins. from the ground every minute. But that is only one-fifth of the energy wasted by a typical tub-thumping open-air speaker, who might as easily be lifting coal from the floor to his shoulder. The female voice, however, is of quite a different calibre, for its mechanism requires so little horsepower to operate that a woman can, we are assured, talk four times as long and four times as easily as a man for the same expenditure of energy, which explains Professor Jespersen's discovery, as well as the widespread belief that in discussion the woman invariably has the last word.

Manufacturing Sandpaper at Victoria

The Western Abrasive Paper Co. Ltd., has been incorporated with headquarters at Victoria for the purpose of manufacturing sandpaper. The company is using as abrasive material a hard crystalline quartz from the Prince Rupert district, which has proven to be of hardest quality.

Of the 250,000 civilian population of the Hawaiian Islands, 114,875 are Japanese.

The bones of an average woman's skeleton weigh about 14 pounds.

Milk as a Body Builder

Protein in Milk Rates High in Food Value

Man's efficiency depends much on the condition of his health, which in turn depends greatly on the food he eats. From food the body gets the material for development, upkeep and repairs. Of the many constituents of food, protein takes first rank in nutritive value. It is found in eggs, meat, cereals, legumes, fish and milk and most milk products. All proteins, however, have not the same value; some foods supply protein of greater physiological use than that supplied by other foods. Experiments show that when protein from cereals is the only protein in the diet of growing animals, the body of the animal is able to use only about 50 per cent, but when milk is the only source, the body can make use of as high as 85 per cent. Furthermore, when an animal is fed both cereal and milk protein in combination, it can use all the milk protein and a much higher percentage of the cereal protein than would otherwise be the case. It is easy to translate this into every day practice. For instance, if we give a child cereal alone, only a small percentage will be used to do its special work in the body, but if we add milk generously, not only will the milk protein be of the greatest value, but a much higher percentage of the protein contained in the cereal will be utilized. This is true of such staple combinations as bread and milk, oatmeal and milk, rice and milk, etc., and although these foods have long ago proved their worth, we have only recently understood the real reason of the importance and the combination. These facts and others calculated to give reliable information on the value of milk as food are brought out by the Department of Agriculture at Ottawa in a publication, entitled "Why and How to Use Milk," which also contains many recipes.

Will Distribute Seed for Silage

Sunflowers and corn seed for silage will be distributed by the Provincial Government to Alberta farmers during the summer. Every farmer may secure up to 50 lbs. of sunflowers and corn seed, or part of each up to that total. The scarcity of feed last winter is likely to lead to large numbers of the farmers going in for silage this summer, especially in view of the proved value of the French silo.

New Canadian Industry Possible

Possibilities of the establishment of a new Canadian industry are suggested by the visit to Toronto of Col. John Jarvis, world-famous manufacturer of lace-making machinery. He is making a survey of the situation in Canada with a view to submitting certain recommendations to his firm on his return to England.

Frozen Eggs Shipped East

Operations have commenced at the new egg melange plant opened at Winnipeg by the William Davies Company, for the exploitation of the Hail process of freezing eggs. The product is being shipped east where it is used in the manufacture of confectionery.

After the Pennies

The Fraction of Currency Gaining a New Importance

It is not so long ago that in Western Canada the humble copper was despised—indeed, less than a nickel counted—indeed, in many of the smaller centres coppers were looked upon with suspicion even now. Times are changing—changing fast—of the west are realizing that the day of long profits has gone. We are putting ourselves on institutions which calculate their percentage of profit in fractions of a cent.

No more striking example of the tendency to make volume the decided objective is offered than the recent action of a Canadian bank in putting on an extensive advertising campaign for deposits of very small sums. Instead of the haughty invitation "one dollar opens a savings account," they now cordially invite initial deposit of one cent. Different plans are offered to encourage the small depositor, one being that he should start with a cent the first week and each week make the deposit one cent larger. The second week the deposit would be 2 cents and in the 50th week the deposit would be 50 cents. The result of accumulation will be \$12.75 in 50 weeks. The plan may be reversed by paying the larger sum first and decreasing it one cent weekly until at the end of the period the deposit is only one cent.

If the depositor wishes to increase the amount of the weekly payment this can be done to any extent, two cents a week, five cents a week, twenty-five cents a week, or any other amount. Under these plans the money is not repayable for a stipulated period.

When so dignified an institution as a Chartered Bank will upset all precedent to increase a volume, even if it involves handling many small accounts at a loss, it carries a strong suggestion for the retailer to put his profit margin to the lowest possible limit and work for turnover in order to start the wheels of industry turning with their old-time speed.

Arrange for New Brick Plant

Business men who have been identified with brick interests in Edmonton for the past twelve years have completed arrangements for the installation of a brick plant at Grande Prairie to supply the markets of the Peace River country. Suitable clay deposits have been secured and the first machinery has arrived. It is hoped to be producing early enough to supply material for some of the larger structures planned for this year.

Agricultural Wealth Decreased

The gross agricultural wealth of Canada for 1921 is estimated at \$6,831,025,000, as compared with \$7,612,153,000 for 1920, a decrease of about 10 per cent. The decrease is due to the heavy fall in the price of agricultural and livestock products. In the total estimate land accounts for \$3,198,876,000; buildings, \$1,935,712,000; implements, \$291,660,000; livestock, \$1,666,720,000; poultry, \$38,007,000; fur farming, \$6,834,000; and agricultural product, \$1,296,223,000.

World's Climate Changing

Scientists Claim That There Have Been No Changes Throughout the Ages

The first striking fact in the geological history of climate is that the present climate of the world has been maintained since the date of the earliest, unaltered sedimentary deposits. The oldest sandstones of the Scotch Highlands and the English Longmynd show that in pre-Cambrian times the winds had the same strength, the raindrops were of the same size, and they fell with the same force as at the present day. The mean climate of the world has been fairly constant, though there has been local variations which have led to the development of glaciers in regions now too far, at various points in the geological scale. That there has been no progressive chilling of the earth since the date of the oldest known sedimentary rocks is shown by their lithological characters, and by the recurrence of glacial deposits, some of which were laid down at low levels at intervals throughout geological time, according to the United States geological survey.

Paint Used by Ancients

Various Forms of Paints Used Since Time of the Pharaohs

Paint is not a modern invention, indeed, while lead is of ancient origin. The story is told of the wife of the famous Greek General Xenophon, who had the habit of smearing white lead on her face and wearing high heels until her husband told her "the thought is pretty enough as she was without the application of artificial aids to beauty." There is a reference traced back as far as the seventh century, A.D., which is the first recorded instance of the use of paint to cover a wooden carriage, very much in the manner prevalent today. There are earlier historical mentions of the use of paint, but these refer more to sizes, such as glue and special paints used by the Romans in admixture with glue to paint their ships of war. The Egyptians used glue sizes and varnishes. The mummy cases in museums indicate that clearly and probably from the earliest examples of varnished articles in existence.

Increase in Ontario's Population

The total population of the province of Ontario increased in 1921 by 116,622 over the figures of 1920 and assessment by \$94,145,599 according to the latest municipal statistics. The report shows Ontario's total population at the end of 1921 as 2,738,407, of which figure cities account for 1,166,815; urban, 540,533; and rural, 1,031,054. The report credits Toronto with an assessed population of 612,812.

Crop Yields for 1921

Returns of crop yields for 1921 from 3,134 threshing machines give a total of all grains for Alberta of 56,437,972 bushels. Winter wheat averaged 10.9 bushels per acre; spring wheat, 17.7 bushels; oats, 30.13 bushels; barley 23.56 bushels; rye, 11.07 bushels; and flax, 4.78 bushels.

Experiments With Western Rye Grass

Difficulty in Yielding Power Shown by Different Varieties

Of much significance to western farmers are the investigations into the comparative values of different varieties of western rye grass now being made by experts of the Dominion Experimental Farms, a brief account of which is given in the May-June number of the Agricultural Gazette of Canada. This grass being self-fertilized like wheat, it is expected to be possible to originate many new varieties which will be constant in their characteristics. In conducting the work, a number of wild forms have been collected from different provinces. From these, plots have been established, and from which 150 lots of the grass were grown at Ottawa last year for the purpose of studying their relative agricultural values. In order to provide for further testing, a number of varieties have been sent to the experimental farms and stations in the prairie provinces. An astonishing difference in yielding power is shown by the varieties, for in 1920 white one gave only 12 pounds 5 ounces of straw and seed from 300 plants, another gave 109 pounds 5 ounces. While complete statistics relating the yield in 1921 were not available it is believed that the maximum yield will prove at least five times greater than that of the sort commonly grown. Analysis by the Dominion chemist shows that the nutritive constituents of the varieties are also very different. From these facts it will be seen that the experiments in progress promise to be of the utmost value, particularly to the prairie provinces, where western rye grass is of corresponding importance to that of timothy in the east.

Trees and Shrubs for the Prairie

Experiments Have Been Great Factor in Furthering Tree Culture

The absence of tree growth on the prairies has always been recognized as a very considerable drawback. This fact has led to the introduction of trees from the east, with frequent disappointment as a result, in a pamphlet "Success in Prairie Tree Planting," by Norman M. Ross, B.S.A., B.F., chief of the Tree Planting Division of the Department of the Interior, reference is made to the assistance given to tree planting by the systematic experiments with native varieties and adapted methods of culture carried on in former years by the Experimental Farms at Brandon and Indian Head. These experiments, states the bulletin "have undoubtedly been one of the greatest factors in furthering tree culture generally throughout the prairies. In addition to the native trees, Russian and Scotch European sorts proved suitable, such as Russian poplars and willows, the caragana and the Scotch pine.

After sixteen years' experimenting the late Dr. Wm. Saunders, then Director of Experimental Farms, published a very valuable bulletin on the trees and shrubs tested on the western experimental farms, and listed all varieties which might reasonably be expected to do well. For those interested in tree and shrub planting this was the most valuable publication and probably the only one published up to that time, giving absolutely reliable information. This bulletin, known as Experimental Farm Bulletin No. 107, is available upon application to the Publications Branch, Department of Agriculture, Ottawa. Both these publications should be carefully studied by all prospective planters.

Large Sum for Highway Construction

Approximately three-quarters of a million dollars are to be expended upon new highway construction in British Columbia this year. This will include hard surfacing and concrete paving, 50 per cent of which has been decided upon by the provincial public works department. The chief items include another three miles to the Pacific Highway, a 19-mile section of the Rossland-Christina Lake road, and the Nelson-Ymir road.

Using Western Resources

The Rocky Mountain Paint Company, recently incorporated, which has located in Calgary, controls vast deposits of color-bearing material in the western area of the province and is utilizing these western resources in the manufacture of paints and colors. Arrangements have been made for placing the local product on the western markets.

Canadian Literary Works

Hugh S. Eayrs, President of the Macmillan Company of Canada, is authority for the statement that in 1917, the number of Canadian literary works published was 36; in 1918; 42; in 1919, 70; in 1920, 200, and in 1921 about 400.

The Coleman Oddfellows are holding memorial service at 8 p. m. on Sunday next.

Fred Thell, of Lethbridge, accompanied by J. E. Risk, motored up this week.

The Bellevue I. O. O. F. are holding memorial service on Sunday, June the 18th, at 3 p. m.

The proprietor of the Office Bldg. Lethbridge, had to dig up \$750 to cover a fire, when convinced of selling liquor.

Both the Protestant and Catholic cemeteries have been renovated and look a lot better for the work that was done on them.

The first fire patrol airplane from the station at High River passed over the town this week. It was flying at a great height and was soon out of sight.

Donald Hines, of the Union Bank staff, returned from Calgary this morning. He has been away for two week's holiday.

Mrs. George Bouthillier and Miss Hazel Knis left on this morning's train for Nelson. They expect to be absent a few weeks.

A meeting of the I. O. D. E. will be held on Saturday afternoon next at 2 p. m. in the Mission Hall. All members are requested to attend.

A fine wire fence is being erected around the Catholic church and Father Cosman's residence. It will also extend around the McIlven residence. It adds greatly to the appearance of the property.

Frank A. B. one, of Regina, and Tommy George, of Ogomo, Sask., are visiting Mr. Beebe's father here, W. A. Beebe. They are motoring to the coast and expect to return through here on their way home some time in August.

Cowley Happenings

(Too Late for Last Week.)
Miss Gladys Baines spent the week end with her parents in Calgary.

H. D. McMillan and Wallace Eddy motored to Calgary last Saturday night.

Mr. Robert Mott, of the Alberta Pacific Grain Co., who recently suffered a broken collar bone, is now convalescing at home.

A good number of people went to Blairmore from here last Saturday to witness the ball game between Cowley and Blairmore. Blairmore came off victorious by two scores.

Mr. and Mrs. Roland Easterbrook and little daughter, Elva, left for Wrentham by auto on Monday for a two weeks visit with Mrs. Easterbrook's parents, Mr. and Mrs. Connor.

Rain has been falling here for the last two days. Farmers are feeling quite hopeful again and the grasshoppers which have been appearing are being checked by the poison bait that is being put out. Crop conditions are good.

Considerable inconvenience as well as delay and probable crop damage is being caused by the failure of the government to provide materials for grasshopper bait. The hoppers are not showing up on all farms as yet, but some damage has already been reported.

Notice has been received of the opening of the fishing season on June 15th. Contrary to expectations, the smaller streams as well as the large streams are open, but it said that a close patrol will be made of these small streams to prevent the taking of fish under the legal size; the smaller streams harboring mostly small fish.

G. F. Snyder has gone to British Columbia for an indefinite stay.

L. P. Moore visited Beaver Mines on Monday.

The Rev. J. T. Ferguson, superintendent of Presbyterian Missions was a recent visitor here.

John Kemmis left on Monday to attend Masonic Grand Lodge, in Edmonton.

Mrs. Geo. Ritson has gone to Medicine Hat owing to the illness of her father.

Rev. Dr. W. S. Atmore and Mrs. Atmore are the guests of Mr. and Mrs. Graham, at the Few Ranch. Mrs. Atmore was formerly Mrs. H. R. Cotton.

Crops are making satisfactory growth during the present warm weather. Grasshoppers are numerous and doing some damage, though the poisoning campaign is in full swing and proving effective.

CARD OF THANKS

Mr. and Mrs. Carl Smith and family desire through the columns of The Enterprise, to express their sincere thanks to the many friends and neighbors who so kindly assisted them at the time of their sad bereavement.

WEDDING

A quiet wedding was solemnized at the Union Church Manse on Tuesday evening last, when Miss Lena Franz and Mr. Edmond LaBrie, both of Cowley were united in marriage by the Rev. W. T. Young. Mr. LaBrie is well known through the Pass, being catcher on the Cowley baseball team. The bride is also well and favorably known throughout the district.

Fitzsimmons and Palmer, the Lethbridge aviators, are leaving Lethbridge on Wednesday, June 21st, at 3 p. m., on their flight across the continent. The will deliver letters at the many places where they intend to stop.

Studebaker

"Built-in-Canada"

STUDEBAKER builds more six-cylinder cars than any other manufacturer because Studebaker builds them better.

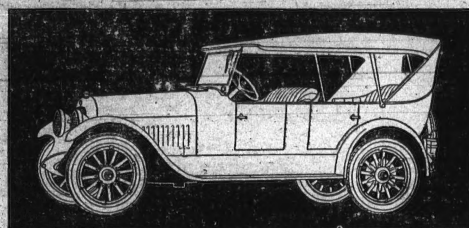

We can show you many definite points of superiority in the Special-Six that prove this statement.

In times of close competition, merit wins. Today competition in automobiles is keener than it ever was, because people are buying more carefully than they ever did.

Studebaker increased its Canadian sales 64 per cent in 1921, though the industry, as a whole, showed a falling off of nearly 45 per cent. 1922, up to May 1st, shows a gain of 143 per cent in Studebaker's production in the U. S. and Canada over the same period of 1921.

Studebaker's sales records tell their own story. The buying public has declared for Studebaker superiority.

Touring, \$2075; Roadster (2 Pass.), \$2025; Roadster (4 Pass.), \$2075; Coupe, \$2050; Sedan, \$2250. All prices f. o. b. Waterloo, Ont.

Own Your Home

A campaign that is worthy of support, and one it is to be hoped will prove largely successful and be persisted in from year to year, is now in progress in quite a number of cities and is finding prominence in the news and advertising columns of the daily press. It is a campaign of publicists to educate people as to the wisdom of taking steps to acquire a home of their own instead of remaining "renters" all their life.

While such a campaign can probably be carried on more spectacularly and effectively in the larger centres of population, it is one that might well be extended to towns, villages and hamlets; and, what is of even greater importance, to the strictly rural communities.

Nothing is quite so well calculated to give stability to a nation as to have its citizens, to as great an extent as possible, the actual owners of the dwellings in which they reside. When a man or woman has a stake in his or her country, province, and local community in the form of a piece of land owned by them and upon which they have established their home, certain very desirable results follow.

In the first place, such persons are far less likely to be influenced by demagogic appeals of agitators designed to undermine the stability of the state and shake public confidence in national institutions. The person with a fixed stake and interest in the country will give second thought before embarking on a rash enterprise, whereas people having no such interest in the country are more easily led astray by the professional trouble maker.

Ownership of a home constitutes a powerful factor leading to permanence of population. It is the man having no real interest in a community, as evidenced by lack of his own home, who is here today and gone tomorrow. It is the renters of the world who are forever on the move and who because of a lack of a stake in a given community will likely keep on moving and never annex anything.

People living in rented premises are paying the landlord's taxes for him, a good rate of interest on his investment, thus yielding him a profit and in the long run actually paying for the property. The amount thus paid out annually in rental would in the course of years pay the purchase price and the present short-sighted renter have an asset to show for his money.

The family living in a rented house inevitably take less care of the property than would be the case if it was their own. They do not exert themselves to anything like the extent an owner would to improve and beautify the property, with the result that communities where renters predominate do not present the same prosperous, go-ahead appearance which marks a community of home owners. The incentive to steadily add to the value of the property is lacking; on the contrary, the opposite effect is too frequently noted because improvement of the property by the renter may easily result in a demand from the landlord for a higher rental.

What is true in the case of the resident of a city or town is equally true of the renter-farmer as contrasted with the farmer-owner. It is the renter who arrives to get all he can out of the soil during the yearly brief period of his sojourn on the land. He is not concerned about the future, with the result that the land and buildings deteriorate and the community, province and country suffer loss.

It is gratifying to learn, therefore, from statistics recently compiled that no other country in the world shows such a high proportion of home owners in the larger cities as does the Dominion of Canada, and in this respect the cities of Western Canada are ahead of those in the Eastern Provinces. It is probably true, too, although figures are not available, that in respect to ownership of land by farmers who are tilling the soil Canada occupies a higher place than other countries. The majority of farmers in Canada are owners, not renters, but there appears to be a tendency in this country—and to an even more alarming degree in the United States—for renters to increase in number. Great Britain has repaid the mistake of having huge tracts of land owned by the few and the great majority of agriculturists reduced to renters. Now the great English estates are being broken up, and many farmers are thus being enabled to secure land of their own.

Here in Canada the stability of the state, the securing of permanence of population, the improvement and permanent development of property, and the maintenance of a high standard of living all call for the giving of every possible encouragement to people to become the owners of homes of their own. Buying or building a home is good business for the individual as well as for the state. "Own Your Home" should be the ambition of every Canadian.

BECHAM'S PILLS

Sweeten the Stomach

His Great Regret

New Office Boy—A man called here to threaten you a few minutes ago.

Editor—What did you tell him?

New Office Boy—I told him I was sorry you weren't in.

Constipation and Sluggish Liver

Don't take chances. Get Carter's Little Liver Pills right now. They never fail to make the liver do its duty. They relieve constipation, banish indigestion, drive out biliousness, stop dizziness, clear the complexion, put a healthy glow in the cheeks and sparkle in the eyes. Be sure and get the genuine.

Personally Conducted Tour

Exceptional Opportunity Offered for Visiting Pacific Coast

The Canadian National Railways are arranging a personally conducted tour from Winnipeg to the Pacific Coast. Leaving Winnipeg on June 30th, at 11:30 p.m., the train will connect with a G.T.P. steamer from Prince Rupert on July 6th. Stops will be made at the following points of interest en route: Watrous, Saskatoon, Wainwright, Edmonton, Jasper, Mt. Robson, Prince George, Kitanga, Terrace, Prince Rupert, Vancouver, Victoria and Seattle. There will be made available a choice of routes for the return trip. Get in touch with any agent of the Canadian National Railways for full particulars regarding this tour, or you may write to W. J. Quinlan, District Passenger Agent, C.N.R. Winnipeg. The arrangements made in connection with this tour will ensure perfect comfort and the utmost perfection in travel.

The Man Who Works Hard Should Follow This Advice

Persistence and will power he should have, but whether he has strength and vigor is another question. Hard working men often have headaches and suffer from biliousness. The "Bovril" use of Dr. Hamilton's Pills keeps a man feeling fit and fresh. Dr. Hamilton's Pills keep him always at his best. Headaches, indigestion, poor color, are quickly remedied by Dr. Hamilton's Pills. Dr. Hamilton's Pills keep the system clean and pure, tone up the blood, drive away tiredness and lassitude. No medicine form him is better than Dr. Hamilton's Pills. 25c all dealers or The Cattlebone Co., Montreal.

Very Particular

Hotel Clerk—Will you want a private bath?

Wayback—Yes, I don't fancy those swimming pools—Judge.

LINGERING WEAKNESS FOLLOWING DISEASE

Due to the Fact that the Blood has Become Thin and Watery

In almost every case the victims of influenza, pneumonia, fever and contagious troubles, are left weak, ailing and despondent after the disease itself has disappeared. They do not pick up strength as they ought, and remain "fired," listless and discouraged. The only reason for this is because the blood has been impoverished by the ravage of the disease through which the victim has passed. Strength and full activity will not return until the blood has been restored to its normal condition. The blood can be enriched and purified quickly and surely by Dr. Williams' Pink Pills. To enrich the blood and strengthen the nerves is the whole mission of these pills, and thousands have found them beneficial after disease had left them weak and run down. Among those who have proved the value of these pills in cases of this kind is Mr. Charles A. Turner, light keeper Thrum Cap Light station, N.S., who says:—"In Jan., 1917, I took a severe cold which I neglected until it developed into pneumonia, which confined me to bed for some weeks. When I was able to get up and sit around the house, I found that I was not regaining my usual strength; in fact I seemed to be growing weaker and was reduced almost to a skeleton. I took an emulsion, but it did not help me. One day a friend who came to see me said, 'Here's some Dr. Williams' Pink Pills; just try them, put you on your feet again.' I took them and then got six boxes more and soon could feel they were helping me. By the time the last box was empty I was doing my work again and feeling fine, and I had gained six weight. My health has since continued good, and I give the credit to Dr. Williams' Pink Pills."

You can get these pills through any medicine dealer or by mail at 50 cents a box, or six boxes \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Millions Ready for U.S. Interest

Britain Prepared to Meet Payment Due in Autumn

The Government has completed arrangements to pay, during the coming autumn, interest amounting to \$125,000,000 on the British debt to the United States. It has not yet been decided whether a special mission will be sent to Washington to discuss the debt with the U.S. Government. It is stated in British quarters that the feeling in the United States is believed to favor the negotiations for the funding of the allied debts being undertaken with Great Britain first, she being the principal debtor. A model thus would be applied for subsequent negotiations with other countries.

Will Erect Statue of Currie

A statue of General Sir Arthur Currie, who led Canada's overseas forces in the war, probably will be erected in Victoria in the near future.

Use MURINE Night Morning

Keep Your Eyes Clean—Clear—Healthy

Minard's Liniment Lumberman's Friend

Make it your handy household assistant. Use it for making soap, in washing dishes, for cleaning sinks, refrigerators, garbage cans, etc., for cleaning clogged drain pipes, for removing grease and smoke stains, for scrubbing floors and tiling. You will find that the systematic use of Gillett's Lye will keep everything around the kitchen and bath room clean, sweet and wholesome. Cleans and disinfects. Is economical and sure in its effects. Has been the standard for over 50 years. It saves labor, time and trouble.

Made in Canada

At the Railway Crossing

Trains Get You Going, Coming and Standing Still

Railroad crossings are places where automobile drivers turn around and visit with the people on the back seat. They frequently become good mixers by this process. Sometimes it is hard to distinguish one from another after the train has gone by. The driver is always easy to pick out. He is the one with his face turned away from the railroad track. Many people are of the opinion that the highway crosses the railroad tracks. That is not so. The railroad track always crosses the highway. Some railroad tracks run four abreast. Their percentage of hits is higher than the single-track variety. It gets them three ways—going, coming and standing still.

Wise mothers who know the virtues of Mother Graves' Worm Exterminator always have it at hand, because it proves its value.

Aviator Establishes Endurance Record

Flew from London to Paris Twice in One Day

Captain E. D. C. Horne, who is piloting one of the new D.H.34 "expresses" on the London-Paris airway, succeeded in establishing a new endurance record in commercial aviation. Leaving the London air station at Croydon for Paris at 6:55 a.m., Captain Horne flew to Paris in 123 minutes. After half an hour's rest he flew back to Croydon, arriving there at 11:54. Snatching a hasty luncheon, he was in the air again—still in the same machine—at 12:45 p.m. and alighted at Paris at 2:58 p.m. Spending only 22 minutes on the ground at Paris, he returned to Croydon at 5:40 p.m.

Within 11 hours Captain Horne piloted the same aeroplane 1,000 miles, his "flying time" being 8 hours 52 minutes. It is the first time that one pilot has flown to Paris and back twice in the same day.

The previous best performance was that of Captain Shepperson, who, on the day of the French Grand Prix in 1920, flew from London to Paris in the morning, back to London again after luncheon, and then back to Paris once more before dusk.

Settlers Bringing in Money

Settlers who arrived in Winnipeg during the month of April, 1923, earned 1254, according to a statement issued by Thomas Gellie, Commissioner of Immigration. Their effects were valued at approximately \$187,297, and they brought with them \$353,932 in cash.

Steel window shades which drop when the display window glass is broken have been installed in some western stores to foil burglars.

Where Settlers Come From

A statement compiled by the Department of Immigration and Colonization shows that for the month of April 3,268 immigrants entered Canada from the United States, and 2,331 from other sources. Of the settlers from the United States, the State of Michigan contributed the largest numbers were from Arizona and North Carolina, with one each.

Miller's Worm Powders are complete in themselves. They not only drive worms from the system, but remove the damage that worms cause and so invigorate the constitution that it speedily recovers from the disorders of the digestion that are the result of the work of these parasitic intruders. They do their work thoroughly and strength and soundness follow their use.

Says Empire Must Retain Sea Power

Lord Lee Gives His Opinion on Maintaining Navy

A number of prominent people have sent messages to the special June number of the Empire Mail. Lord Lee, First Lord of the Admiralty, has a message saying that in these days of financial panic and economy at any cost, it is well to remember the unchanging fact that the security of trade and commerce, the continuance of food supplies and the very existence of the empire are dependent on the maintenance of sea power and an adequate and efficient navy.

Horticulturists Organize

The Canadian Council of Horticulture has been organized as a result of a meeting held at Ottawa. The council will afford representation for fruit growers—vegetable growers, wholesale fruit and vegetable dealers, florists, gardeners, jam manufacturers and others generally interested in fruits and vegetable production. The first president is Colonel H. A. Roberts, of Grimsby, Ontario, and the secretary-treasurer is L. P. Burrows, Assistant Fruit Commissioner, Ottawa.

Further Plans For Better Co-Ordination Of Employment Machinery

Ottawa.—Closer co-operation between the Dominion and Provincial Governments and the better co-ordination of employment machinery already established were pressed by Right Hon. Mackenzie King, Prime Minister, in addressing the second session of the fourth annual meeting of the employment service council.

Mr. King expressed the hope that out of the deliberations of the council recommendations would arise upon which the Government could take action by way of legislation.

Hon. James Murdoch, Minister of Labor, indicated the various classes of handicapped workers that were applying to the employment service and suggested that if at all possible all phases of employment work should be centralized in the employment service of Canada.

Hon. H. S. Beland, Minister of Soldiers' Civil Re-establishment, stated that 35,000 disabled ex-service men had been placed in employment by his department during the past three years.

Two committees were appointed—one for the consideration of the problem of the placement of the handicapped and another to report on the general unemployment problem.

"The demand of Mr. MacNeil is entirely in harmony with the oft-repeated requests of organized labor," declared Tom Moore, President of the Trades and Labor Congress of Canada, in reference to the letter of C. G. MacNeil, Secretary of the Great War Veterans' Association, to the Prime Minister, urging the appointment of a special committee of Parliament to investigate the unemployment situation.

"We are fully aware," Mr. Moore added, "that the unemployment problem is still with us, and with cessation of seasonal occupations next autumn there seems every reason to believe there will be serious unemployment this coming winter as there was last. The time to deal with this matter is at the present time and not when the full volume of unemployment is upon us, and therefore we coincide with the demand of the G.W.V.A., and submit that Parliament should take action immediately."

Full Authority Given For Large Loan To Be Advanced To Germany

Paris.—The Allied reparations commission, by a three to one vote over-riding France's negative ballot, gave the bankers' committee full authority to propose an international loan for Germany on any basis the committee thinks desirable. The bankers, however, indicated their disposition not to take any action that would be in opposition to the French Government's wishes.

The French attitude toward the

bankers' committee was discussed at a conference at which President Millerand and Premier Poincare were present. It was after this discussion that M. Dubois reaffirmed the stand he had previously taken in the reparations commission.

The opinion that appeared to prevail among the bankers as they began their informal discussions was that the view taken by the principal creditor, the French Government, ought to be the controlling factor.

The bankers, it was pointed out, have seen from the first that there were great difficulties in the way of the flotation of a loan, and therefore they are not surprised at the turn events have taken.

The divided vote of the reparations commission, marks the first important decision taken by that body with the French member, Louis Dubois, dissenting.

Premier Poincare told the foreign affairs commission that he hoped the negotiations would continue for an international loan to Germany, although he hardly expected any early tangible results. In the meantime, French industry, while awaiting German payments in cash, which could become important only through the aid of a loan, must adjust itself to payments in goods.

M. Poincare said the French Government would always make it an essential condition that a loan would not mean any reduction in the reparations due France.

Repeating previous declarations in the chamber of deputies as to France's determination to act alone if necessary in case of Germany's default in reparations, the Premier said that regardless of whether the loan was for reparations or not Germany arose or not France had studied and prepared all precautions for various sorts of penalties and was ready for the day when the reparations commission would declare Germany in default.

PAINS IN BACK AND SIDES

Relieved by Lydia E. Pinkham's Vegetable Compound

Lindsay, Ontario.—"I used to have very bad pains in my back and sides and often was not able to get on my feet. I tried many medicines before I began to take Lydia E. Pinkham's Vegetable Compound advertised in the Toronto Globe and I found that it helped me to keep it for myself and my neighbors. I keep it in the house all the time and take it once a while. No matter how well I feel, for one ounce of prevention is worth a pound of cure."

Edmonton, Alberta.—"I used to have very bad pains in my back and sides and often was not able to get on my feet. I tried many medicines before I began to take Lydia E. Pinkham's Vegetable Compound advertised in the Toronto Globe and I found that it helped me to keep it for myself and my neighbors. I keep it in the house all the time and take it once a while. No matter how well I feel, for one ounce of prevention is worth a pound of cure."

To do any kind of work—and you know there is much to be done—is next to impossible if you are suffering from some form of female trouble. It may cause your back to ache or a pain in your side; it may make you nervous and irritable. You may be able to keep up and around, but you do not feel good.

Lydia E. Pinkham's Vegetable Compound is a medicine for women. It is especially adapted to relieve the cause of these troubles, and restore them to normal health.

W. N. D. 1424

Passing Of Mounted Police Post

Lethbridge.—Old Fort MacLeod, established in 1874, just after the formation of the Mounted Police, is practically out of existence as a result of the cutting down of trees in the fort which is now in progress. The men at MacLeod are being moved to the Lethbridge headquarters. The MacLeod post has been used as training grounds for recruits following their preliminary training at Regina. Altogether after the transfer there will be between 50 and 60 Mounted Police at the Lethbridge Barracks. Inspector Jöngel is now in charge, succeeding Supt. Penfether.

Harvest Labor Problem

Employment Service Council Discuss Details of Mobilization for this Year

Ottawa.—Problems of harvest labor were discussed at the opening session here of the fourth annual meeting of the Employment Service Council of Canada held under the Presidency of J. P. McNiven, Deputy Minister of Labor in British Columbia. Discussion turned mainly on the organization of the movement of harvest labor from the east and British Columbia to the prairie provinces. Representatives of the Canadian Pacific Railway, the Canadian National and the Grand Trunk Railroads were present to confer with the members of the council.

The meeting went fully into the details of mobilization of harvest laborers and their distribution, both from the employment service and the transportation standpoint. Among the points discussed were the rates of transportation, the proper selection of harvest hands and the closer dovetailing of excursions with the ripening of the crops of the various districts.

The meeting was attended by representatives of the various provinces.

Seized Ammunition

Shipped to Ireland

British Took Cartridges Consigned as Lard from U.S. Vessel

Trunk, Ireland.—It was stated that when the American steamer Seattle Spirit was held up by a British torpedo boat destroyer four miles west of the Fenit, County Kerry, pier, a search of the vessel revealed 50 barrels supposed to contain lard. The barrels were consigned to the order of the Manhattan Lard Company at Cork. It is declared that when they were opened each barrel was found to contain 10,000 rounds of rifle and machine gun ammunition.

The torpedo boat destroyer, which has been waiting three days outside the bay, took the barrels aboard. The Seattle Spirit sailed from New York.

Discuss Egg Marketing

Saskatchewan Retailers Hold Annual Convention in Regina

Regina, Sask.—Eggs, good, bad and indifferent, and the methods of marketing them, occupied a large share of attention of the Retail Merchants' Association of the province during their convention here.

A resolution asking for an amendment to the act, shifting the responsibility for the marketing of sound, fresh eggs from the shoulders of the retailers to those of the producers, which was passed by the grocers' trades section, was adopted by the general convention without a dissenting voice.

The reports of the various officials reflected a spirit of optimism with respect to business prospects.

Large Freighter at Montreal

Montreal.—The largest freighter to enter Montreal harbor is now docked here. She is the steamer Irishman, recently diverted from the New York run to Montreal to assist in the ever increasing cattle export trade. She will take out one thousand head, the largest consignment ever conveyed down the St. Lawrence on a single ship.

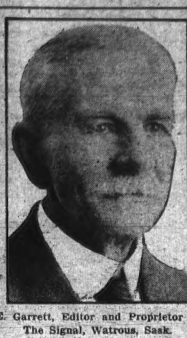

Review Fish Express Rates

Edmonton.—Express rates for fish shipped from Lesser Slave Lake points and other parts of Alberta, will be under review by the Board of Rail Way Commissioners at a sitting to be held in Edmonton early in July or possibly in Ottawa toward the end of this month.

Delay Oriental Congress

Constantinople.—The Oriental Congress of Eastern Nations has been postponed at the request of the Russian Bolshevik Foreign Minister, M. Tschetkher. The congress was to have been held in Moscow this month.

WESTERN EDITORS

E. Garrett, Editor and Proprietor of The Signal, Watrous, Sask.

Bolshevik Vandals

People in Russia Are Indignant Over Desecration

Paris.—The Russian Bolsheviks leaving no stone unturned in the work of feting out church treasures for confiscation, have violated the tomb of the Czar and Czarina in St. Peter's and Paul's Cathedral in Petrograd, said Le Journal, quoting private advice from a reliable source. The tomb of the Czarina Anna Ivanovna, which was made of silver, was removed bodily, and the coffin of Catherine the Great was broken open and a necklace and rings of great value taken.

The Bolsheviks are declared to have even pried the lid from Peter the Great's coffin, but, finding the body marvellously preserved, were abashed and dared not strip it of its jewels. The Russian people are extremely indignant at the desecration.

Regina Men Chosen

Canadian League for Prevention of Tuberculosis Elects Officers

St. John, N.B.—Dr. W. C. Laidlaw, Edmonton, was elected President of the Canadian Public Health Association, and Hon. Dr. Brett, Lieutenant Governor of Alberta, was chosen Honorary President, at the annual meeting here. A new avenue of endeavor, to be known as an "Industrial section," was decided upon.

The annual meeting of the Canadian Association for the Prevention of Tuberculosis, also held here, elected officers including the following: President, ex-Sheriff A. B. Cook, Regina; Vice-President, Dr. M. M. Seymour, Regina.

It was decided to ask medical schools to incorporate institutional training in tuberculosis in their course.

Wants Unemployment Problem Investigated

Secretary of Veterans' Alliance Sends Letter to Premier

Ottawa.—Declaring that "many thousands of those demobilized from the C.E.F. are still denied the opportunity of obtaining a decent livelihood," C. G. MacNeil, Secretary of the Dominion Veterans' Alliance, has forwarded a letter to Hon. W. L. Mackenzie King, Premier of Canada, urging the immediate appointment of a special Parliamentary Committee to thoroughly investigate the entire unemployment problem.

Persecutions in Albania

London.—The Greek Government, says an Athens despatch to the Exchange Telegraph, quoting the Politika, has protested to the League of Nations and the Council of Ambassadors against the persecution of Greeks in Albania, declaring that if this mistreatment continues the Greeks will be forced to take military measures.

Lenine Convalescing

Riga.—Premier Lenine, of Russia, suffered a severe attack of gastritis, May 28, according to a statement issued by the Soviet Embassy. Coupled with previous overwork, this attack affected his nerves and his circulation. Doctors have ordered absolute rest for the period of convalescence.

Want Canadian Beef

London.—The White House congress of the Co-operative Union held at Brighton, at which 1,700 delegates representing 4,500,000 members were present, asked the Government to reconsider its decision regarding the importation of Canadian store cattle.

First Whales of Season

Victoria.—The first whales of the season have been taken and prospects for a record catch this year are bright, according to reports received from coast whaling stations.

Sir Lomer Gouin Says Main Concern Of Tariff Is For Revenue Purposes

Opposed to Titles

Thinks the King's Advisors Would Do Well to Stop Practice in Dominion

London.—The Manchester Guardian, discussing the opposition aroused in South Africa and Australia over the bestowal of certain titles, says it looks as if the King's advisors would do well to make an end of bestowing such titles upon citizens of the Dominion. A hint of this was plainly enough given, the Guardian says, when Canada politely requested that the practice should be ended so far as that Dominion was concerned, and the trouble has now spread and is regarded as virulent by South Africa and Australia.

"It seems unfortunate," says the Guardian, "that despite the known reluctance of the Dominions to be enriched with titled citizens, the home government still persists in making the conferral of honor play in making and play, moreover, in an ill-directed hose at a fire on individuals whom their fellows consider quite unsuitable for such conspicuous treatment. Those who might conceivably be thought suitable, are dodging the jet."

Prepaid Rule Cancelled

Winnipeg.—Cancellation of rule that charges on express shipments to and from the United States and Canada, be prepaid, has been announced by the American Railway Express Company, George E. Carpenter, Secretary of the prairie division, Canadian Manufacturers' Association, was advised. "The change is effective June 15. This regulation has been in force for some time due to the exchange situation being against Canada."

Weekly Newspaper Owners Meet

Ottawa.—The convention of the Canadian Weekly Newspapers Association held here was attended by over 40 delegates. V. C. French, Wetaskiwin, Alberta, presided. "The change is effective June 15. This regulation has been in force for some time due to the exchange situation being against Canada."

Indictment Quashed

Vancouver, B.C.—Holding that the indictments were badly drawn, Judge Cayley, in county court, quashed all four charges against Graham Campbell and Frederick Gossby of unlawfully and fraudulently conspiring to effect the abolition of H. S. Clements, a member for Comox-Alberni at the last federal election.

A man is a stark fool all the while he's angry.

Much Interest Taken In Coming Elections Stage

Dublin.—With little or no information given out regarding the prog of the conversation between Mr. Griffith, president of the Dail Eire and the British ministers at London in the session of the 1 centre on the status of the Yalera-Collins pact and the prospective elections.

In Mr. Griffith's absence the of leading the house falls on Mr. Collins, and in the present state of affairs the people will centre on the declaration of leaders and the debate among rank and file of the assembly in order to find a solution for the situation.

Mr. Collins is expected to rev the general relations between north and south, with special reference to the Petticoat affair, but I understood that the topic of an ardent appeal will be that of obsance of the coalition pact in the coming elections.

When the business of the Dail is concluded at this session, it is not expected to meet again, but will be replaced by the new Dail now in course of election. The date of summoning the new body has been fixed at July 1 by arrangement between the Lord-Lieutenant and the Provincial Government.

The main business of the new parliament after passing the constitution will be consideration of the franchise bill, establishing universal adult suffrage and authorization of a new register on which the free state elections will take place.

The feature of the completed returns of the nominations is the certainty that in twenty of the twenty-seven electoral areas, of independent

Ottawa.—Interest in the budget changed swiftly from the debate itself to impending modifications in the taxation proposals and as swiftly changed back following a speech by Sir Lomer Gouin, Minister of Justice. Indication that changes are at hand was given by the Prime Minister almost casually. "The Minister of Finance," observed the Prime Minister—at the time the House was discussing when the vote should be taken—will doubtless wish to make a statement to the House, in the light of discussion here and of representations made to him, and may possibly suggest some modifications in the proposals now before the House."

Of the nature of the "modifications," Mr. King gave no inkling, although changes in the proposed stamp tax on checks are generally thought to be included.

Sir Lomer Gouin's speech is regarded as of particular importance in its possible bearing on the coming crucial division of the main budget motion. Sir Lomer, as he stated his fiscal views, was frequently cheered by Conservatives. "With the Liberal party," he averred, "the main concern respecting the tariff is not free trade or protection. It is revenue." He agreed that agriculture was the basic industry but emphasized the need of manufactures.

"Abolish the tariff," Sir Lomer quipped. "No Government could think of it, and it could not do it if it tried."

There had been talk of two million people having left Canada. "It may be wrong," commented Sir Lomer, "but in my opinion if we had in this country more manufacturers we should have kept with us many of those who left to go elsewhere."

From the Conservatives, the main speaker of the day was Hon. H. H. Stevens, Minister of Trade and Commerce in the late Government. Mr. Stevens devoted some considerable time to the budget provisions regarding depreciated currencies. "It is the most fatal thing in the budget," Germany, by artificially creating debts was scheming to avoid payment of reparations. "To whom, is our duty?" he warmly asked Mr. Stevens. "Is it our duty to help Germany out of her hole and to plunge France into a worse condition; or is it our first duty to be at least neutral in this situation? I say be neutral, do not pay a premium on German goods and thus force France deeper into the mire."

at 9 p. m., under the auspices of
the Bellevue Football Club.

Rev. W. T. Young returned
from Edmonton on Friday morn-
ing last, where he attended the
Methodist conference. He motored
up and back.

Mr. G. F. Gare, of the Coleman
Journal, and Mr. McLaren, news-
paper man of Kaslo, B. C., were
in town on Friday last week,
and visited The Enterprise office.

Rev. G. D. Armstrong, of Macleod,
was appointed one of the
Alberta delegates to the General
Methodist conference. F. W.
Galbraith, editor of the Red Deer
Advocate, is a lay delegate.

If old mother Eve could appear
in New York society at this day,
she would run a chance of being
kicked out of the “400” for being
over-dressed.

Besides the general office of the
coal company being built at
Bellevue, Contractor Pozzi is also
constructing a power house and
sub-station and a shop at the en-
trance of the mine.

The grasshoppers are reported
to be very bad around the southern
farming areas and all efforts
possible are being put forth to stamp
out the pest.

The balance sheets of the
Crows' Nest Pass Coal Co., Fernie,
for 1921, showed total assets of
\$6,693,309, and liabilities \$6,506,392,
with a bank balance of \$99,735.
W. R. Wilson was again
elected president at a meeting
held last Friday.

After ten weeks strike, the
miners of Hillcrest received Ra-
pael Money, on Wednesday morn-
ing, 30 cents for each child, while
the single men received 90 cents.
Well, that's enough to go to Movie
once anyway.—Hillcrest Notes in
Coleman Journal.

A slight error was made last
week in the report of the progress
on Mar Poy's restaurant. It was
stated that Contractor Ericson
was erecting the building; when
it should have read Contractor
Pozzi. Ah, well, accidents will
happen in the best of regulated
families.

Bellevue Local Union will hold
an election next week to decide
who is to be president and sec-
retary for the ensuing term. Those
nominated for the presidency are
J. McLean and J. Fernneau, while
those nominated for the position
of secretary include G. F. Beel,
John R. McLeod, and A. K. Kaye.

Old timers in the district will
learn with regret of the death of
Richard Gaskel, of Michel, which
sad event took place in that town
on Sunday. Deceased who was
64 years of age, had resided in
Michel for many years. He was a
returned man having served over-
seas with the 2nd C. M. R. The
funeral, which took place on Tues-
day, was conducted with military
honors.—Fernie Free Press.

A. J. Kelly spent most of last
week in Calgary.

Mrs. D. L. Campbell, of Pineb-
rook, is visiting her sister here,
Mrs. E. H. Joyce.

Mr. W. Howe, ex., paid a visit
to his farm near Elkton, during
the past week.

Teachers in Kansas who use
tobacco will, in future, be refused
a permit to teach.

Mr. Barnhill has gone to Leth-
bridge, where he will enter a
hospital for treatment.

S. J. Sargent sailed yesterday
from Montreal on the Minnedosa,
bound for England.

BORN—on Sunday, June 11th,
to Mr. and Mrs. Wai, Oliver, a
daughter.

BORN—To Mr. and Mrs. M. B.
Huffman, on Wednesday, June
14th, a son.

C. S. Pinder, a newly ordained
minister, is taking over the Meth-
odist church at Hillcrest on the
first of July, from Rev. Newman.

Mrs. L. H. Putnam returned
last week end from Vancouver,
where she attended the I. O. E.
convention as local delegate.

Staff-Captain Bristow, of the
Salvation Army, Calgary, spent
last week end visiting the local
Army Corps.

G. G. Coote, M. P., for Macleod,
wants Frank Carvell, head of the
railway commission, removed
from that position, or in other
words, fired.

The Baseball dance held in the
Greenhill Grill last Friday night
had a very poor attendance, and
the result was that the club clear-
ed only a few dollars.

Johnson & Cousens' new store
building at Bellevue is now com-
pleted and the football club will
hold a dance in it before the stock
is placed.

Rev. Newman, who has filled
the pulpit of the Methodist
church at Hillcrest for several
years, leaves around the first part
of July for his new field at Alli-
ance, Alberta.

Among those to have nice new
signs painted on their windows
during the past week are Gillis &
MacKenzie, Blairmore Wholesale
Jobbers and the Blairmore Ice
Cream Parlor. The work was
done by Mr. Geo. Leadbetter.

The Local Golf Club held a
competition of foursomes on
Wednesday afternoon. Mr. J. B.
Wilson and Mrs. R. Green came
first and Mr. D. G. MacKenzie and
Mrs. Smith, (Hillcrest), were
second. Lunch was served in the
new club house and all report
having had an excellent time.

The Exception Proves The Rule

Editors, as a rule, are kind
hearted and liberal. An ex-
change tells of a subscriber who
died and left fourteen years' sub-
scription unpaid. The editor
appeared as the lid of the coffin
was being screwed down and put
in a linen duster, a thermometer,
a palm leaf and a recipe for mak-
ing ice.

TAX RECOVERY ACT

Corporation of the Town
of Blairmore and
School District

Notice is hereby given that if
all arrears of taxes in respect of
any parcel of land situated within
this Municipality are not paid on
or before the first day of July
next, such land will be dealt with
under the provisions of the Tax
Recovery Act, 1922, with a view
to obtaining certificate of title in
the name of the Municipality in
respect of such parcel.

FRANK WRIGHT,
Secretary-Treasurer.

In the matter of the Estate of Edmund
Disney, late of the Town of Cole-
man, in the Province of Alberta,
Contractor, Deceased.

NOTICE TO CREDITORS AND CLAIMANTS

NOTICE IS HEREBY GIVEN
that all persons having claims up-
on the estate of the late Edmund
Disney, who died at Winnipeg,
England, (formerly resided at the
Town of Coleman, in the Pro-
vince of Alberta) on or about the
29th day of October, 1921, are re-
quested to forward to the under-
signed solicitors for the Executrix
of the Last Will and Testament of
the said Edmund Disney, on or
before the 1st day of August, 1922,
a full statement of their claims,
duly verified, or any securities
held by them, and after that date
the Executrix will distribute the
assets of the estate among the
parties entitled thereto, having
regard only to the claims of which
notice has been so filed or brought
to their notice.

DATED at the Town of Blair-
more in the Province of Alberta,
this 14th day of June A. D. 1922.
ALICE DISNEY,
Executrix.

Gillis & MacKenzie,
Blairmore, Alberta
Solicitors for the Executrix.
